-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 1-36 are pending in this application.

2. OBJECTION TO THE SPECIFICATION:

The specification is objected to due to improper spacing between words.

3. OBJECTION TO CLAIMS:

The claims are objected to due to improper spacing between words.

4. Claims 1-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The meaning intended for the abbreviation "DDS" in claim 1 is ambiguous and unclear. It is suggested that "DDS" be changed to ---drug delivery system (DDS)--- to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: mixing and/or reacting method steps and a method step correlating the screened DDS preparation and ligand binding in a target tissue.

Regarding claims 1 and 9, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

In all occurrences, the syntax in the phrase "ligand appropriate to the targeting" is improper and renders the claims indefinite. Correction is required to comply with US Patent practice.

Claim 20 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: a description of the device that includes a description of the means, structural features and definite functions.

Claim 20 is indefinite because the phrase "comprising being capable of" does not distinctly claim subject matter regard as the invention.

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: a description of the reactants and/or components and instructions for using the instant kit.

Claim 27, is indefinite because in line 23, the phrase "integer of 1-5. Proviso that" is grammatically incorrect.

Correction is required to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Claims 1-36 are allowable over the prior art of record.
